VOLUME 9

DOTHAN, ALABAMA, WEDNESDAY EVENING, MARCH 15, 1911

NUMBER 100

## "GO SOUTH, MY BOY," SAYS CHAMP CLARK

Chicago, March 14.—Congressman Champ Clark, of Missouri the coming speaker of the National House of Representatives, today amended the famous saying of Horace Greeley:

"Go West, young man, go West!" and made it read:

"Go South, my boy, go South!"

The Missouri congressman headed off newspaper men who sought to ask him questions pertaining to other matters, and insisted that they first "learn something about the southland from one who knows and wants every one else to know."

Supplementing his amendment, Mr. Clark said:

South is the Place

"The South is the place, and my advice is to you to go there. You won't eat as much as you do here in the north. If you do you'll die. Your clothing must be lighter and therefore less expensive; you won't have to buy furs to speak of and you can allow your horses to graze out of doors the year round.

"Believe me, the South is the poor man's land and you'll live to see the day when the South is going to be the richest part of the United States.

"Why, I know a man who made \$15,000 in one year off three acres of lettuce. Sounds fishy, doesn't it? True, though, for I took pains to find out. It's a great country, boys, and if you want a tip, follow my advice. That is to go early to the Southland and grow up with its progress.

## CLARENCE H. COWERT.

Troy, Ala., March 14.—Clarence H. Cowart, age 40 years, died here at 7:30 o'clock tonight. Mr. Cowart, who was cashier of the Farmers and Merchants Bank, had been in poor health for some time, having returned recently from New York, where an operation was performed. It was believed he would recover, but yesterday he grew rapidly worse and this morning his life was despaired of. The deceased is survived by a widow and three children. The funeral will be held here tomorrow and the interment will be in Oakwood cemetery.

## "THE MAN ON THE BOX"

The delightful comedy, made famous by Henry E. Dixie, "The Man on the Box," will be the attraction at the Elite Theatre for one night only. This is a book play in every sense of the word. Every character being drawn from the book and the lines of the story are followed closely. Much care has been given to the selection of the actors for the various parts, and a well-balanced presentation of a good play is the result. Critics everywhere concede that Grace Livingston Furness' dramatization of H. G. Wells' novel is one of the best put together plays of the decade, and with competent actors in the parts, a thorough enjoyable show is the result. Seats on sale at Nix Drug Store.

## LEGISLATURE DOES WELL BY STATE SCHOOLS

Public Schools to Receive \$500,000 a Year, Normal Schools \$20,000.

The House committee yesterday came to an agreement on appropriations to be recommended to the House for the several educational institutions.

The public schools are to receive \$500,000 per year, an increase of \$150,000.

Auburn, the University of Alabama, and the Girls' Industrial School are to receive \$200,000 each.

The Boys' Industrial School at East Lake is to receive \$50,000 for building, and \$150 each for every student.

The Girls' Industrial School is to receive \$4,000 and the Home of Refuge \$3,000.

The nine agricultural schools of the state are to receive \$7,500 each, and the normal schools are to receive \$20,000 each.

The Mt. Meigs Reformatory for colored youths is to receive \$25,000, and an allowance of \$250 each allowed the inmates of the State Deaf, Dumb and Blind Institution.

The Patterson negro school at Montgomery is to receive \$7,500, and the Corona Industrial School \$10,000.

## SOCIAL OCCASION

### TOMORROW NIGHT

The Irish entertainment to be given tomorrow night by class 21 of the First Baptist church is looked forward to with much pleasure. It was announced in the Eagle Monday that this entertainment would be given for the benefit of the Headland Avenue Baptist Church, but this was an error and should have read the First Baptist Church.

Irish songs will be sung, funny stories will be told and a genuine Irish program will be carried out. No admission will be charged and everybody is invited. The ladies will bring a lunch for two in a box which will be auctioned off to the gentlemen who will dine with the lady whose name appears therein.

The entertainment will begin at 8 o'clock and will take place in the Singer office on East Main street.

## STILL AFTER THOMPSON

Sheriff B. O. Hay left this morning for Gordon where he goes to further his search for Charlie Thompson who shot and killed Bill Bevil and injured his son Sunday night.

It is believed that Thompson is in hiding near Gordon and has not been out of the community since the murder. He acknowledged the shooting on Monday morning when he came into Gordon to have the shot picked from his arm. He was shot by young Bevil immediately after the murder of the father, the charge taking effect in his arm.

Mr. and Mrs. J. V. Harrison and Mr. and Mrs. C. R. Tally are moving into the residence on South Oates street recently occupied by Mr. and Mrs. F. R. Ball.

## HOME MISSION SOCIETY

The Woman's Home Mission Society held its monthly meeting Monday afternoon. Bro. L. P. Latham being present, conducted the devotional part and gave us a most interesting and instructive talk on mission work. After a short but impressive talk from Brother Rogers, the president took up the plan of work for the coming year. The society being entirely out of debt, this promises to be a grand year for doing real home mission work. Several important committees were appointed, among these being committee to visit the sick and needy.

The plan of raising \$300 was agreed on, said amount to be given to Sunday school.

An ideal program for each monthly meeting was arranged, a literary leader and hostess being appointed for each month. A good attendance was present, and we were glad to enroll several new members. With the plan of the work so mapped out, we feel sure of accomplishing much during the coming year.

The next meeting will be held on Monday, April 10th.

## NOW IS THE TIME

### TO BUY FARM LAND

If the past few seasons can be taken as guides, now is the time to buy farm lands. Of course, few farms can be delivered at this season of the year; but with a small cash payment, the remainder to be paid when the farm is delivered in the fall, there are many farms in the vicinity of Dothan that can be bought.

We have over two hundred farms ranging from forty acres to twelve hundred acres, and any of these will sell for more in the fall than at this time. We are in correspondence with people in the north who are anxious to come south to escape the severity of the winter, and many of these people will buy farms. We sold a 200 acre farm to a New York man last week for \$10,000. That shows what the people of the north think about our lands.

We can sell this week 160 acres of fine improved land adjoining the above place at the same price that the above place sold for. There is some more improved land on this place than the one sold.

Also, we have a 280 acre farm about two miles north of town, in fine state of cultivation, good improvements and running water. We are in a position to sell this at \$50 per acre. Adjoining lands can't be had for less than \$75.

Forty-three acre farm half mile south of city limits, pecan orchard six years old, bearing Elberta peach orchard, fine deep loam land, railroad frontage, at \$100 an acre.

## TEACHERS STRIKE IN SHEFFIELD SCHOOL

Sheffield, Ala., March 14.—Chaotic conditions exist in the public school of Sheffield and the entire city is shaken today. The storm clouds which have been hovering for several days, burst in fury this morning and there is discord and division.

The trouble began several weeks ago when the principal, W. Frank Puckett, who has had charge of the institution for the past three or four years, was dismissed by the Board of Trustees, without any charges having been preferred, as stated by Prof. Puckett.

The day he surrendered his position, he was married to Miss Nettie Ferrell, his first grade teacher, she having been elected to the principalship a few hours before her marriage. She at once assumed the duties as principal and for a month has had charge of the school. Within the past few days, however, Prof. M. W. Hatton, President of the Florence University, recently destroyed by fire, was elected by the Board of Trustees to the position held by Mrs. Puckett, and was to have entered upon the management of the school this morning.

When the hour for opening school arrived, the new principal was on hand with three members of the school board. Mrs. Puckett, who is custodian of the building, had the keys and refused to surrender them until advised by her attorney to do so.

With the keys the members of the school board repaired to the building and the waiting pupils were directed to assemble in their respective rooms.

## Teachers Leave Classes

Prof. Hatton assumed charge as principal, and the members of the board were preparing to leave, when they were informed that the teachers of the second and fourth grades had left their classes. Later another teacher left, all stating to their pupils that they would not return until another principal had been chosen, as they did not recognize Prof. Hatton as principal.

Mr. Henry Law, of Enterprise, who was Miss Louanna Crawford of this city prior to her marriage, is in the city visiting relatives.

## CAMPBELL COMING

Will Lecture Here at the Elite Theatre on Night of 24th.

Rev. Sam H. Campbell, who had a cancel his lecture date here a few days ago, will be here on the night of the 24th, and will lecture at the Elite Theatre. His subject, as was formerly announced, will be on Jerusalem and the Passion Play.

Mr. Campbell was for some time pastor of the First Baptist Church in Dothan, and has many friends here who will be glad to hear his lecture. The proceeds of the lecture will go to the Headland Avenue Baptist Church.

Miss Bateman, of Nashville, Tenn., arrived last night to take charge of the millinery department at Cherry's.

## DOTHAN'S DEADLIEST ENEMY

- The common house-fly takes more meat, fouls more food, spreads more filth and scatters more germs of disease than any other single factor in our civilization
- Screen Your Houses and Stores

Only about nine months ago, before the war dogs will be unblocked

That Mexican uprising amounts to but little for the New York Journal's headlines are not near a foot high.

The average law-abiding citizen will tell you confidentially that he knows enough of this man or that one, to send him to the pen

The weather man must have his mind on the golf links down at Augusta, where the President is taking his much needed rest

Where to spend the summer vacations is never such a troublesome question as how are we going to raise the money to take them

It will soon be too hot down in Mexico to make that little uprising profitable, since the people have boycotted the moving pictures

The distinction of being the cutest kid in town begins to wear off mighty fast when the well defined paths are traveled over enough to get the straw macerated

It is time to hold up on this criticism of the governor for his appointments, for next thing you know, he will be stopping the output of rotary public

It takes a lot of rest, such as golf playing, big game hunting, and other helpful enjoyments to keep a president thoroughly rested and primed for duty to his country.

It may be that we have time to play ball this summer, but there is little being done so far to organize. If it is done, the high school boys will have to make the move.

The Montgomery ball team ought to have some say so about whether there is a special session of the legislature. They don't want any hon-doos hanging around at the beginning of the season

An Atchison philosopher says that it may be said of some weddings that the father doesn't give the bride away, although he tries and thinks he succeeds till daughter brings the young man home to eat

Few people let their whiskers grow after they begin to streak with gray. When they have grayed a good deal, they are liable to take it again, but there is a middle time, when they are thought not to be handsome.

Governor O'Neal is to be commended for one thing. So far, he hasn't seen the need of more colonels on the governor's staff. If he sees the need of more, there is no doubt that he will go along and create a few new ones.

We don't believe that movements of soldiers to the Mexican border will amount to enough to make the ladies adopt something military in the way of dress, as they always do when war is being talked or planned.

Woodrow Wilson need not be sowing any presidential seeds in the South. We have nothing against him, and usually take any man they put up, but we think that he would do well to visit some of the western and northern states, and sow a few seeds

Even the most ardent administration man has to think a good deal, and look up the newspaper files, before he can recall one single corner law that has been repealed unless it was a liquor law. The people are oppressed by those laws now just as they have been for five or six years

The Atlanta Constitution has discovered some startling humor in the weekly press of Georgia. It takes items at random from the various weekly papers of the state particularly the correspondent and works it up in good shape. To get the highest class of humor now days, one has to turn to the weekly press which are natural expressions of natural people

## PRISONERS' RELATIONS

It is a custom among the convicts in the penitentiary to give a fellow convict who has been pardoned, or has served out his sentence, all kinds of good wishes and usually to hope to see him again

The other day when some Birmingham jointists were given a five day jail sentence they made things lively for the other prisoners. They fought all kinds of nice things for them to eat, and when they were discharged some of them distributed quarters to every prisoner in the jail

Therefore the prisoners naturally felt kindly toward them and probably wished them many happy returns

## PUT THE VAGRANTS TO WORK

A man had occasion to go over town the other day and reported an unusual large number of loafers in Dothan. This man went up one street and down another, and seeing so many negroes lying about the houses he began to count them. He found forty two idle men lounging about the houses and eight of the number were too drunk to know what day of the week it was

Every guano factory in the city every cotton oil mill, the lumber mills, and all industries of the city that employ a considerable number of laborers, are wanting men. They are advertising for men, and sending out of town for them, and are offering from \$1.50 to \$1.75 a day for their work. They cannot get enough men to keep their mills and factories running to their full capacity

There is a city ordinance against vagrants. It should be strictly enforced. The mayor should detail a policeman to make the rounds of the town, and put every idle man to work before the mayor to pass on, whether he can live without working or not

The working negroes of this town want object to such procedure. They don't want a lazy negro hanging around them, and they will assist the officers in locating loafers

Two days' work in the week is enough to keep them in whiskey and they are spending on some other working negro the rest of the time for grub

## WE NEED SOME IMPROVEMENTS

It will seem like a big undertaking to set out and build a new pumping station and electric light plant, but we evidently need it, and need it badly

For the last few days, we don't seem to have enough water in the stand pipe for domestic purposes. Some times it runs, but not all the time, in the high places it acts mightily slow and lazy

The lights go off on some streets, and stay till day, and the light plant never seems to miss them

The people who live here, most of them have done away with their oil lamps and wells, thinking that the town could supply these conveniences

The town has done very well in the past and may be doing its best now. If it is, then it needs help from some source. We are not getting as good service as we need

Lights are too dim they are off too frequent and water pressure is too low

Insurance companies have taken both in out of the second class risk and put in the third because the carbide expert the Southeastern Fire Association sends out says that our fire fighting apparatus is not what it should be. The fire companies have no other fire station and better pumping station

And something for the town paying out thousands of dollars in excess fire insurance premiums. The overruns in premiums would soon build a new plant and as the money comes out of the pockets of the people of Dothan there is no use in waiting. It is a big job but it might as well be tackled

## WHAT WORRY DOES

Dr. Snow of London, the distinguished opponent of vivisection, now in New York, says that worry is the most frequent cause of cancer. In times past this affliction, which is becoming increasingly prevalent, has been attributed to the excessive consumption of meat, to fish and even to eggs. If worry predisposes humanity to such a scourge as this, in addition to all the other ills for which it is held responsible, it is plain that the earth has few evils so great or so general

Where contagion and heredity slay their thousands, worry kills its hundreds of thousands. Worry leads straight to insanity. It prepares the way for consumption and kidney trouble. It shatters the nervous system and thus is the forerunner of a hundred complaints which lower vitality, produce suffering and result in untimely death

Progress in sanitary science, in surgery and in medical practice has lengthened the average span of life in spite of conditions which undoubtedly increase the sum of worry. In fact worry is the price that many pay for advantages which they enjoy. If mankind could have had the full benefit of the wonderful discoveries of the past century or more, with none of the drawbacks of increasing worry, the average life

would be much greater than it is.

One trouble about worryment is that it usually afflicts the wrong people. It afflicts in most cases with the aspiring, the conscientious and the respectable. Indolence, intemperance, ignorance and crime have only a speaking acquaintance with worry. Worry is the torment of the worthy poor and it is the destruction of the well-to-do who are considerate of duty. A wider distribution of the burden of civilization, to the relief of many and the sobering of others, would be the best thing that could happen to the race. Some worry is essential. Too much worry and no worry at all are the things that destroy.—N. Y. World.

## DISTRICT SUNDAY SCHOOL CONVENTION

At the last convention of the Sunday schools of the Dothan district, it was decided to hold the next meeting Saturday, March 18, but on account of the disorganized condition of some of the rural Sunday schools at this time, the committee has thought best to postpone the date

The next meeting, a program of which is given below, will be held at Bethlehem church near Floyd's mill, Saturday, April 22. It is hoped that every Sunday school in the district will have a large delegation at this meeting

## A Man AND His Clothes

**CLOTHES** are like men. It takes time to show their real worth. It isn't the way they look when you try them on, or when you wear them the first few times.

Neither is it what you pay—it's what you get—the lasting service and satisfaction.

Good clothes mean the knowledge that you are looking your best all the time that you are wearing them.

The ability to look every man in the eye with never a doubt about your appearance.

Isn't all this worth something to you?—at least the trouble to come in to our store and see the clothes. Our guarantee of permanent satisfaction leaves no risk on your part.

## Store News—Superlatives

We believe an ad. should be store news. We believe it should read just as it is told you "over the counter." We believe it should be understated, rather than overstated. We believe superlatives should be used only in rare cases. We try at all times to make our ads so read that you will find the items we tell you about better than you expected. We believe if you knew our methods and our stock as we do, you would agree that no one house in South Alabama has the merchandise for women and children that you will find on our two floors. On our top floor—we understate it when we tell you—we have over \$25,000.00 ready-to-wear apparel, and every Eastern express adds to our stock. We want you to become so well acquainted with us that you will always come here to do your shoppings.

All Calicoes in the house, including Simpsons Pecales, American Indigo and Shirting prints, Simpsons greys, black and white, Garners reds and oil prints. Printed Lawns, stripes, checks, and floral designs, pretty patterns and fast colors, splendid for children and house dresses.

Staple Gingham, good cloth usually priced 8 cts, as low as any Alabama jobbing house would sell it in quantities.

Yard wide unbleached sheeting, would cost us more today at the mills.

**5  
Cts.**

Yard wide Linette, registered cloth, made at South Boston Va., by one of the Souths best mills, always at 15 cts.

Superior Batiste, confined to our store for Dathan, Dots, rings and floral patterns, a beautiful sheer cloth, most stores would consider good at 5 cts.

Amoskeag Utility dress Gingham in all 1911 patterns, fast colors.

Bookfold Madras and Cheviots, for dresses, aprons, childrens frocks, and mens shirts, fast colors.

Dotted Swiss, dots and figures, yard wide, special value.

Yard wide linen finish suiting, the best we have ever had for ---

### SILKS

This is a Foulard Silk season—we prepared early for we kind in advance how scarce good styles would be. We are showing Foulards 26 inch wide as low as 35 cts. We have a big range at 50 and 59 cts. We have the famous Cheny Bros "Shower Proof" Foulards in new styles at 79 and 89 cts. Our collection is large and each one has a modest price on it.

### SUESINE SILKS

Look up your Fashion book and see what Suesine Silks are advertised at 39 cts—Our price for all colors is 25 cts. (They wash—splendid for slips.)

### ONE PRICE

Last July we adopted the "one price to all alike" system, and barring mistakes, we have never deviated from this system in one single instance. We are building for years to come and the only way to build a big business is to treat everybody alike. There is only one way to do a business, in our mind, and that is the right way. We most positively do not believe its right to have one price for one customer and a different price for another

We mark everything in plain figures and it is positively the same to everybody. Your child can buy anything here as cheap as you can, and you can buy it as cheap as anybody on earth.
